

How to Install the Point Cloud Importer from nCircle

In Vectorworks, access the **Install Partner Products** command

Help > Install Partner Products

In the **Install Partner Products palette** you can either scroll down or search for:
nCircle Point Cloud Importer for Vectorworks

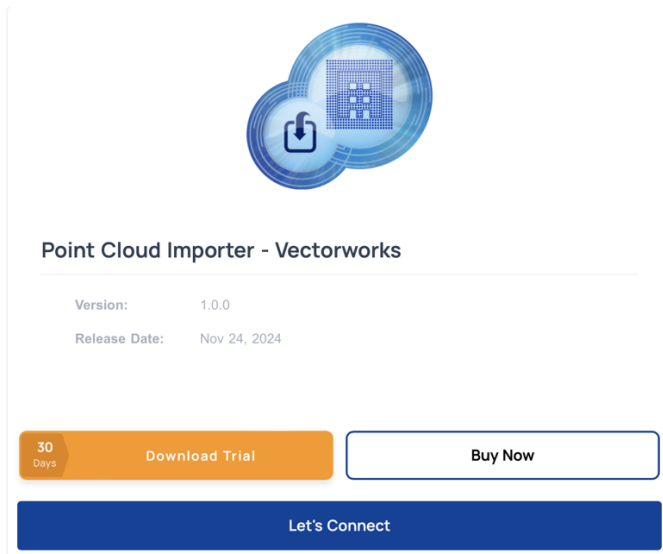

Select this partner product.

Click the “Install” button [Note: if you are on a Mac, the button will read “Cannot Install” as this is a Windows only product.]

The “install” button will direct you to nCircle’s product page.

Select one of the options on the right to either “Buy Now” or “Download Trial.”

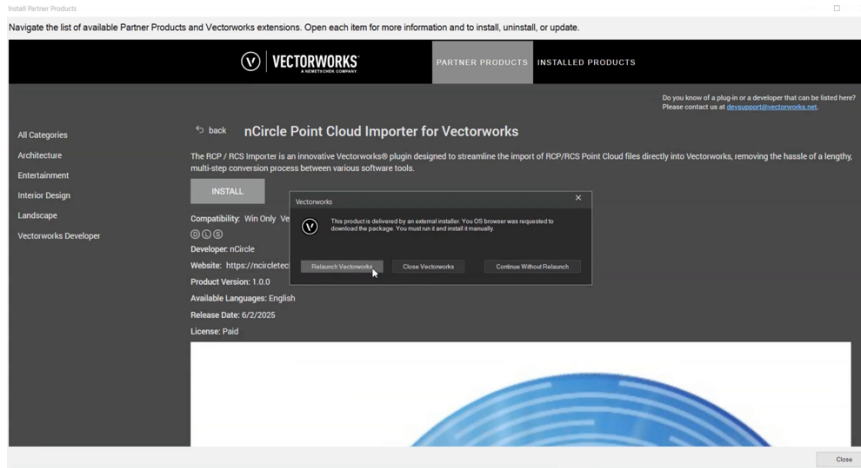

You will be directed to a registration page to receive your license.

Once you complete the registration, you will receive an email at the address used for the registration. In the email, you will receive the following:

- Your License Key
- A link to download the installer – be sure to click on the installer of the correct version of Vectorworks that you are running

Run the nCircle Point Cloud Importer install that has been downloaded.

Once installation is completed, return to Vectorworks and select the “Relaunch Vectorworks” option in the window.

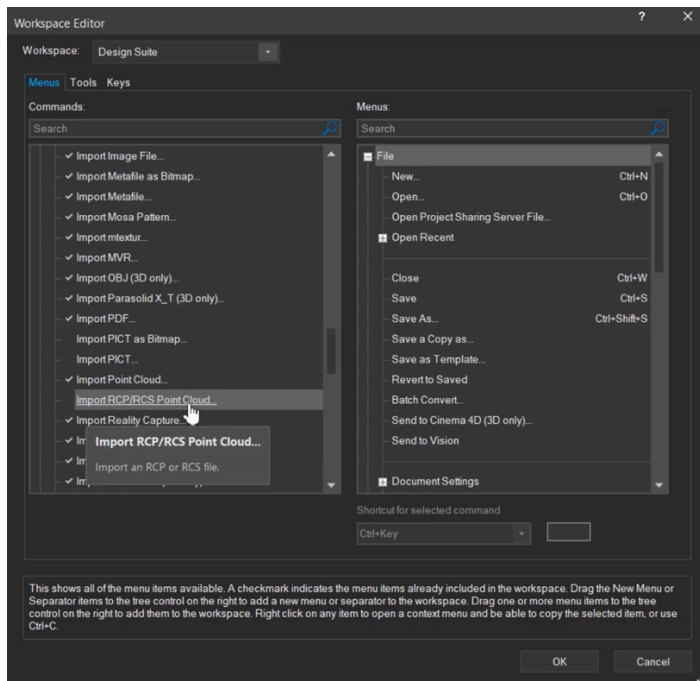

Once Vectorworks has restarted you can edit your workspace to include the RCP/RCS option in your import menu by going to:

Tools > Workspaces > Edit Current Workspace

In the **Workspace Editor**, make sure you are on the “Menus” tab at the top.

In the **left-hand column**, expand the **Import/Export** menu items.

Scroll down to “**Import RCP/RCS Point Cloud**”

In the **right-hand column**, expand “**File**” and then “**Import**”

Select the Import RCP/RCS Point Cloud

Click and Drag this option from the left hand column to the right hand column into the File > Import list.

Place where you would like to see this option in the Import Menu command.

You should now see “Import RCP/RCS Point Cloud” in

File > Import

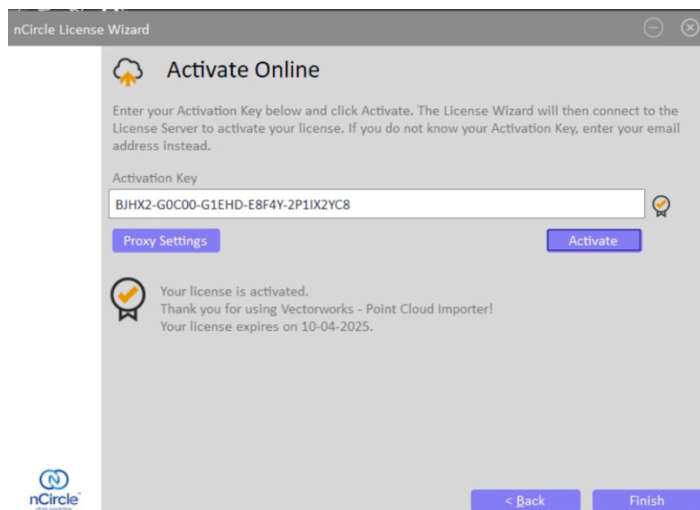

Select the Import RCP/RCS Point Cloud command

You will see a nCircle License Wizard

Select Activate License

Copy/Paste your License Key from your email and select Activate [Note: You must be connected to the internet to activate your license.]

When your license is activated, it will be indicated in the License Wizard dialog.

Select Finish.
